- * All this and much, much more...

Let's get started - 'Draw - Draw and more drawing' Two whole days dedicated to creating your own fantastic drawings. I spend lots of one-on-one time to make sure you understand your equipment and tools, process, execution and development of all the drawing concepts and techniques with live, in-class demos to show you how I do it and I am with you every step of the way to help and assist whenever needed to give you a huge heads up with every aspect of your drawing process including how to better use and get the most from equipment, tools, best practice and techniques. Every day filled with heaps of great tips and tricks not found in books.

I would love to see you there and share some fantastic creative drawing time with you so please let me know ASAP to secure your place or get more information. (*All student levels welcome*)
