**The Process:-** I explain and demonstrate, then we get started with some practice painting to consolidate and understand the new concepts and techniques before moving forward and creating your major workshop paintings.

**Next - 'Painting Fantastic'** 5 whole days to painting your own fantastic paintings. I spend lots of one-on-one time to make sure you understand the process, execution and development of all the painting concepts and techniques with live, in-class demos to show you how I do it and I am with you every step of the way to help and assist whenever needed to give you a huge heads up with every aspect of your painting process including how to use and get the most from colour, paint mediums, good brush and palette knife techniques. Every day filled with heaps of great tips and tricks not found in books.

I would love to see you there and share some fantastic creative painting time with you so please let me know ASAP to secure your place or get more information.
